VISION

VALUE PROP

interactive running experience
with time challenge

PROBLEM

The running routine becomes more and more predictable, route options are repetitive along with no feedback, genuine joy, or challenge from the progress.

SOLUTION

Collecting coins while running challenges the runners and makes the experience more engaging. Comparing achievements with friends and others promotes competitiveness and inspires improvement.

TASKS

Easy:

Generate quick run

Moderate:

Browse leaderboard
and add friends

Complex:

Create custom
route

PAPER PROTOTYPE Testing

PAPER PROTOTYPE TESTING METHODOLOGY

- To test the paper prototype we recruited three students.
- Target group were 2 female and 1 male .
- The age of the group was in range 20 - 60 years.
- Testing environment was three separate Zoom meetings, and the technique used was wizard of Oz.
- First the prototype was presented to them, and they had to give grades of planned functionalities.

Participant ID	Participant Age	Who?	Findings	Changes after study
1	20	UPF student	Adapt general language	Adapted general language
2	22	BGU student	Valuable ideas about gamification aspect	Coin usage Coin timer Coin statistics Coin usage
3	56	Father that runs	Valuable ideas about statistics view	Adapted statistics information view at the end of the run

Medium-Fi Prototype

Easy It's a beautiful day for a run, i'm so thankful i have my app to enjoy it

all you need to do is select a difficulty and distance

tapping

5 min to get a gold coin

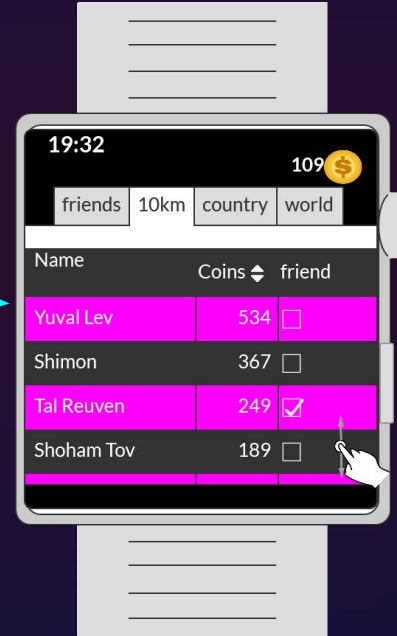

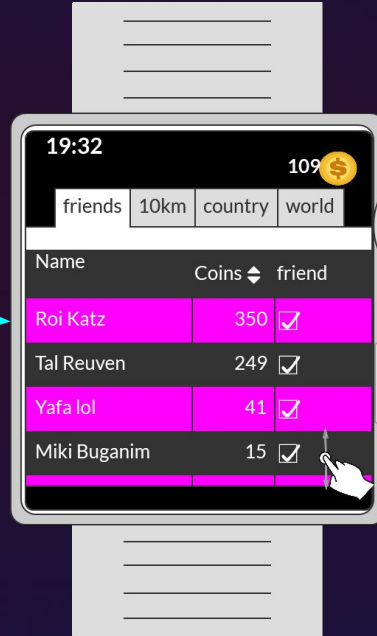

lets go

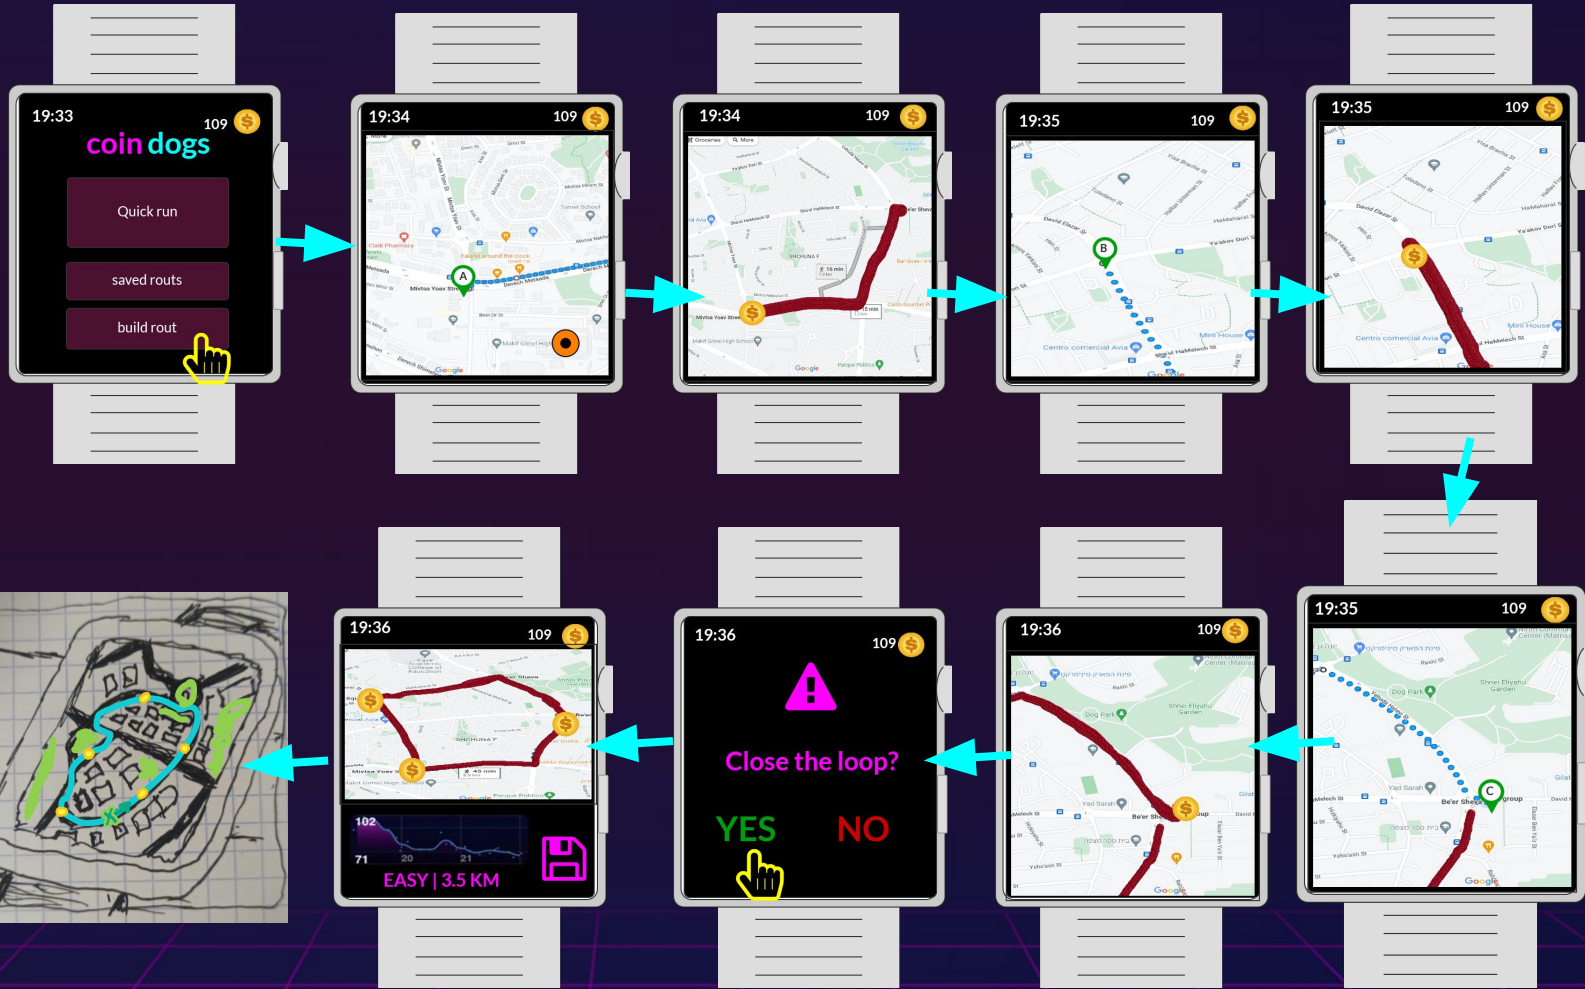

coins generated on the route

Moderate

Complex

Prototype overview

left out

watching and activating saved routes

reason: it was redundant since most aspects were covered in quick or create options.

percentage of the run that completed

reason: too much info for a small screen, will be reconsidered if deemed useful in future testing

Wizard of Oz techniques

**Imaginary protopipe functionality:
Following users' actions, typing data and changing screens**

Using hard-coded features

Hard-coded features

**map route
was hand
drawn**

**the default
route always
has medium
difficulty**

**leaderboards
are static**

**run information is
predetermined**

THANK YOU :)
